

Your Specialist Partner for Skin & Surface Hygiene

WIPES PORTFOLIO FOR HEALTHCARE

Skin and surface hygiene solutions from THE INVENTORS OF PURELL™

Your specialist partner for skin and surface hygiene

GOJO is the leading global producer and provider of skin health and hygiene solutions for away-from-home settings.

In addition to our existing portfolio of products for handwashing, hand sanitising and skin moisturising, we now offer a range of wipes for skin and body cleansing, including continence care, hand and surface sanitising wipes and medical device disinfecting wipes.

SKIN CLEANSING WIPES

Containing aloe vera and argan oil, PURELL® Skin Cleansing Wipes are perfect for both healthcare workers and patients to clean hands, faces and maintain healthy skin. We offer two versions of this non-woven substrate for greatest efficiency. The 100 count flowpack and 200 count canister wetlaid wipes offer the most efficient and economical product. The 30 count flowpack offers a thicker spunlace wipe which is softer for use on the patient's face.

1. Take a wipe

2. Gently wipe on the skin

3. Do not rinse, allow to dry

4. Close the container after use

5. Dispose of wipe in bin

BENEFITS

- Enriched with moisturising aloe vera and softening argan oil
- Gentle on the skin and designed for frequent use
- Does not cause dryness or irritation to the skin
- Excellent skin compatibility proven by dermatological testing
- Hypoallergenic formula

SHELF LIFE Unopened packs have a shelf life of 24 months.

HAND AND SURFACE SANITISING WIPES

These multi-purpose disinfecting wipes are effective for use on surfaces, class I medical devices, and are also unique in being safe for regular use on hands. The substrate was specifically chosen because it does not interact with the biocides thereby giving the optimum release of solution, and so greater efficacy.

BENEFITS

- Proven to kill 99.99% of most common germs that may be harmful
- Unique positioning: wipes uniquely approved as a biocide for both PT1 (skin) and PT2 (surfaces)
- Proven to show very good skin compatibility
- Proven to be bactericidal, yeasticidal and active on viruses
- Fresh menthol fragrance
- Can be used for wiping patients hands, especially at mealtimes, to clean any smooth surface, including door handles and patient chairs

SHELF LIFE Unopened packs have a shelf life of 36 months. Once opened, use with one month.

1. Take a wipe

2. Wipe pre-cleaned medical device for at least 30s

3. Do not rinse, allow to dry

4. Close container after use

5. Dispose of wipe in bin

CONVENIENCE

- All canisters and buckets have the first wipe pre-pulled for safety, speed and convenience
- Flowpacks have a pop-up opening which is easy, fast and guarantees perfect opening and closing, to prevent drying out
- Canisters are 100% recyclable

NEW GENERATION PRESERVATIVE SYSTEM

- The PURELL® wipes range utilises a new generation of preservative system
- The wipes utilise a combination of preservatives, a preservation boosting agent and a renewable chelating agent

MANUFACTURING

- The wipes are produced in the EU and are designed and manufactured under pharmaceutical control
- The manufacturing plant is certified ISO 9001 (quality management) , ISO 14001 (environment management) and ISO 22716 (good manufacturing practices for cosmetics)

BIOCIDE STANDARDS AND REGULATORY APPROVAL

- In regulatory terms, PT1 approval refers to a biocide that is suitable for use on skin and PT2 applies to a biocide that is approved for use on surfaces
- PURELL Hand and Surface Sanitising Wipes are unique in that they are approved for both PT1 and PT2
